3. Run two Sessions. A winter and summer session and charge separate rates for each session.
4. Retain Current fees and quit supplying target backers and target supports for the rifle and pistol ranges. (We currently supply target backers and target supports for the rifle and pistol ranges. Yet, the trap shooter will pay a target fee when using the trap throwers. Unless the trap shooter bring their own thrower with targets. A trap league shooter will pay close to \$100 in target fees for the summer trap league. The Gun Club makes very little profit off of these targets.)

7. Eliminate the Daily use fee and require everyone to become a member.
